Personal Summary

I am a well rounded individual with an unquenchable thirst for knowledge. With a bachelor's degree from the Art Institute of Pittsburgh, 10+ years in the nursing field, and welding certifications, I still want more opportunities to grow. Thus I am seeking a career in full stack development in Spain or remote. In tech, I am finding the chance to utilize my hard skills, as well as the soft skills that I have obtained throughout my years of experience in other fields and help people. I thrive when I am invited to grow and I am always seeking an environment that thrives on adaptability, knowledge seeking, and growth as well.
