Summary

We are a compilation of our experiences and that is what makes us as unique as fingerprints. My titles have included Certified nursing Assistant, Patient Services Representative, and Welder - to name a few. With each position, I learn something that I can take with me and apply to the next journey. Some say that only relevant experiences should be included on a resume, but I'd argue that the only time that an experience isn't relevant, is when you haven't learned anything. My background in nursing taught me how to manage time. Patient Services taught me how to effectively listen. Welding taught me how to be methodical and precise. Every job has taught me to be patient with myself and countless valuable lessons. I have a natural curiosity, and a passion for learning. I always seek growth and I am proud of that. I am currently seeking new growth opportunities within the software/web development sector.

Experience

IAteAMech

Full-stack Developer

June 2022 - Present (8 months)

United States

Collaboration with team to deliver products that are satisfactory to client. Implementing HTML, CSS, JavaScript, React, API's, and Node.js. Time management. Helping to maintain good relationships with clients. etc.

Quantum Health

Patient Service Representative

February 2022 - May 2022 (4 months)

Columbus, Ohio, United States

As a patient representative, I handled many customer concerns and questions regarding their health plans. It was also my job to diplomatically diffuse issues that would, at times, arise between the Insurance companies, the health care providers, and the patient. So communication and team work was at the core

of my job here. We kept documentation of our phone calls so that the next representative would be able to pick up where we left off.

RIDC Park

Maintenance Technician/Mechanic

October 2021 - February 2022 (5 months)

Mount Pleasant, Pennsylvania, United States

I was originally hired as a painter, but management quickly noted my initiative and eagerness to expand my knowledge in other aspects of the job. They noticed that I am mechanically inclined and swiftly changed my title to maintenance within my first month of hire which afforded me the opportunity to use many other skills that I have acquired over the course of my work history. These skills include (but are not limited to): Welding, usage of hand tools and power tools, operating machinery (such as forklifts, genies, single person lifts, scissor lifts, dump truck), troubleshooting and fixing issues that arise on the property (everything from industrial roll up garage doors to appliances), general maintenance (basic plumbing/ electric/HVAC), ordering supplies etc. All new work assignment were still in addition to my typical painting assignments (preparing/repairing surfaces, painting, paint removal etc.) My employers then understood my work ethic and what keeps me motivated, which is the opportunity to learn. I recently received both a promotion and a raise in January, my fourth month of hire. My title is now Mechanic. All of my previous responsibilities are still mine with the addition of troubleshooting/repairing/ maintaining the machinery/ vehicles that are in use around the facility. These things include the lifts, the forklift, golf carts, hydraulic fire pump system, etc.

Glenshaw Garage

Welder

June 2021 - September 2021 (4 months)

Glenshaw, Pennsylvania, United States

Read and interpret technical drawings and documents. Operate drill presses, power saws, grinders, metal lathes, and a variety of welding equipment and hand tools. Set up components for welding according to specifications. Prepare parts that must be welded. Align components using calipers, rulers, etc. Weld components using manual or orbital welding equipment. Cleaning and polishing welded components. Perform MIG, Stick, and other types of welding depending on project needs.

Excel Healthcare

Care Coordinator

July 2019 - January 2020 (7 months)

East Liberty, Pennsylvania, United States

Conducting interviews, supervising home health aides, building positive relationships with both our staff and our clients (inside and outside of the office), sales, customer service, customer support, assist with intake (gathering/filing paperwork on new/existing clients/caregivers), home visits with clients and caregivers, insuring that our cases are within compliance.

Community LIFE

Activities Coordinator

August 2017 - July 2019 (2 years)

McKeesport, Pennsylvania, United States

Overseeing activities aides and program aides as it pertains to activities. Resolving any issues that may arise amongst staff, participants, and/or their families. Stepping up as the activities director when the director was not present. Programming, Setting up and running group/one on one activities. Scheduling entertainment, Planning outings. Tracking participation, maintaining the budget, coordinating with all disciplines to facilitate an inclusive/fun environment for participants and to be sure that they are able to have fun and attend their scheduled appointments. etc.

Paramount Senior Living
