Summary

I am a well rounded individual with an unquenchable thirst for knowledge. After a Bachelors Degree, 10+ years in nursing, and welding certifications, I am seeking a career within the tech sector in Spain or remote.

In tech, I am finding the chance to utilize my hard skills, as well as the soft skills that I have obtained throughout my years of experience in other fields and help people.

I thrive when I am invited to grow and I am always seeking an environment that thrives on adaptability, knowledge seeking, and growth as well.
